

Setback in Prices In Quiet Trading On Curb Exchange

Continued Profit Taking in
Oil Group and Further
Unsettlement in Indus-
trial Cause Irregularity

Prices showed a reactionary
tendency at the close of yesterday's
trading on the curb market. Con-
tinued profit taking in the oil group
and further unsettlement in industri-
als cause irregularity.

The Iron Age will say to-day, in
part:

"Steel prices continue to gain
strength as producers use
high-cost coal."

"The Iron Age" will say to-day, in
part:

"Steel prices continue to gain
larger percentages of the high-cost
coal from Kentucky and West Virginia."

"At the same time the Steel Corpora-
tion's policy in adhering to the present
sheet and tin plate prices is a third
quarter business move to hold the
market in check. However, in the case
of sheets the corporation limits this
action to July shipments in view of
the possible shift in the situation
meanwhile."

"Pig iron output in May continued
the gain shown in each month since
January. At 2,306,673 tons last month
or 74,409 tons a day, against 2,072,114
tons in April, or 69,070 tons a day,
there was a gain of nearly 8 per cent."

"In both Pittsburgh and Youngstown
districts the average of Steel Corpora-
tion and independent steel works op-
erated some time ago at a frac-
tional premium. Shiny Oil continued
active around recent high levels."

North American Steel recovered al-
most 2 points on Samuel Untermyer's
letter to Senator La Follette, but
Tobacco Products new stock sagged

further. Motor shares were irregular.
